

FOR IMMEDIATE RELEASE

ST ENGINEERING RENAMES ITS ELECTRONICS SUBSIDIARIES TO STRENGTHEN MARKET BRANDING

Singapore, 3 January 2007 – Singapore Technologies Engineering Ltd (ST Engineering) today announced that its electronics arm, Singapore Technologies Electronics Limited (ST Electronics), has renamed three of its subsidiaries to better reflect their core capabilities and strengthen the group branding. The change is part of an overall effort by ST Electronics to create and leverage on a stronger group identity and branding vis-à-vis its customers in local and international markets.

The renamed companies are :

- 1) *DigiSAFE Pte Ltd* renamed *ST Electronics (Info-Security) Pte. Ltd.*
- 2) *Interactive Visual Laboratory Pte Ltd* renamed *ST Electronics (Digital Media) Pte. Ltd.*
- 3) *Xinke Information Systems Ltd*, a company registered in Shenzhen, China, renamed *ST Electronics (Software Services) Limited.*

“ST Electronics has identified three key areas of business growth namely satellite communication, e-Government and digital media. As the company establishes its brand equity in these businesses internationally, it is timely to streamline the branding of our various subsidiaries to better reflect the group’s core capabilities and markets. With the market focus and core expertise clearly reflected in the new company names, this will enable us to serve our customers and their end-users more effectively.”

**~ SEAH Moon Ming
President, ST Electronics**

ST Electronics’ satcom customers are spread across 60 countries worldwide while its e-Government solutions are used locally as well as overseas in countries like Botswana, China, Hong Kong, Kazakhstan, Maldives, etc. ST Electronics’ solutions for governments include ICT, rail and traffic management, public safety and intelligent building management solutions. In the area of digital media, it has worked with renowned players such as Nelvana, Weta and Promenade pictures to produce animation movies and series.

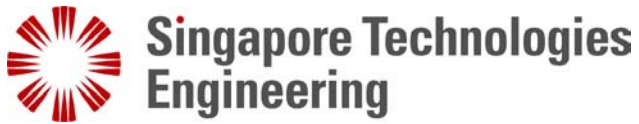

ST Electronics (Info-Security) is a wholly owned subsidiary of ST Electronics (Info-Comm Systems) Pte Ltd. It is the leading provider of infocomm security solutions in the Asia Pacific region specialising in hardware and software-based info-security solutions that enable government agencies, defence and homeland security agencies as well as commercial enterprises to conduct secured information exchanges and communication over private and public networks. ST Electronics (Info-Comm Systems) is a wholly-owned subsidiary of ST Electronics.

ST Electronics (Digital Media) is a wholly owned subsidiary of ST Electronics (Training & Simulation Systems) Pte Ltd. As the animation and games arm of ST Electronics it continues to progress towards becoming a world-class studio, with capabilities across the full spectrum from investment, production, IP exploitation to distribution in the digital media domain. Building on the strong foundation of the parent company's expertise and capabilities in simulation and state-of-the-art graphics, the company delivers high quality productions with cost effectiveness and efficiency, making it a leader in the international Digital Media arena. ST Electronics (Training & Simulation Systems) is a wholly-owned subsidiary of ST Electronics.

ST Electronics (Software Services) is a wholly owned subsidiary of ST Electronics (Info-Software Systems) Pte Ltd. Incorporated in Shenzhen, China it is principally involved in IT development outsourcing and is a software solutions provider. Through its presence in China, ST Electronics taps into the abundant competitive talent pool in China to support its software work and to provide public safety solutions to Shenzhen and Guangzhou. ST Electronics (Info-Software Systems) is a wholly-owned subsidiary of ST Electronics.

ST Electronics, the electronics arm of ST Engineering, delivers innovative system solutions to government, commercial, defence, and industrial customers worldwide. It specialises in the design, development and integration of advanced electronics systems, such as broadband radio frequency and satellite communication, e-government solutions, information communications technologies, rail and traffic management, real-time command & control, training and simulation, intelligent building management, and information security and mobile commerce solutions.

ST Engineering is an integrated engineering group providing solutions and services in the aerospace, electronics, land systems and marine sectors. Headquartered in Singapore, the Group reported revenues of \$3.34b in FY2005. Its market capitalisation of over \$8b ranks it among the largest companies listed on the Singapore Exchange. ST Engineering has about

16,000 employees worldwide, and over 100 subsidiaries in 20 countries and 35 cities. Please visit www.stengg.com
